

Southbound Hwy 52 Improvement Project, Goodhue County

Project overview

The Minnesota Department of Transportation (MnDOT) is scheduled to reconstruct the southbound Highway 52 lanes beginning 2.2 miles south of Highway 19 in Cannon Falls and proceeding south to 1.2 miles north of Goodhue County Road 7. Additionally, MnDOT is proposing to replace a number of bridges, including the bridges at the junctions of Highway 60 (west) and Highway 60 (east) near Zumbrota.

MnDOT will also be investigating intersection improvements at the junction of Highway 57/Goodhue County Road 8 and Highway 52 in Hader. Additional safety and access management measures will be investigated corridor-wide during design development. No determinations on the type of intersection improvements or other safety and access management measures have been made.

See following page for Project Location map

Traffic management

Management of traffic is yet to be determined. Information will be shared with the public as the project is developed.
