

Implementation Plan for 2017 MnDOT Noise Requirements

Implementation is triggered by the start of the NEPA process.

1. Start of NEPA on or after July 10, 2017: Use the new 2017 Noise Requirements.
2. Start of NEPA prior to July 10, 2017: If noise analysis is started** **prior** to July 10th, 2017 use the 2015 Noise Policy. If noise analysis is started **after** July 10th, 2017 use 2017 Noise Requirements.

** “Start of noise analysis” is indicated by the completion of at least one noise model run: i.e., a noise modeling run has been executed to determine if there are any impacted receptors.
