Abutting Receptor – Qualifying Scenarios

Note: The extent of inset of a noise barrier from the right-of-way line is irrelevant with regard to the determination of abutting or non-abutting status of a property.

Definitions:

- **A** Receptor is considered to be <u>abutting</u> the Type I roadway project.
- $\textbf{N.A.} \ \ \text{Receptor is considered to be } \underline{\text{not abutting}} \ \text{the Type I roadway project, } (\text{"non-abutting"}).$

Empty Lot – Lot is vacant and no building permit has been issued.
